Experience

- **AYLIEN** **Dublin, Ireland**
Research Scientist *10/2015 – Present*
 - Developed new aspect-based sentiment analysis (ABSA) endpoint¹ from scratch; created data collection and training pipeline; implemented semi-supervised convolutional neural networks.
 - Developed multi-lingual models for sentiment analysis on-par with state-of-the-art².
 - My current work focuses on developing efficient domain adaptation and semi-supervised learning algorithms as well as making models more robust to new inputs.
- **IBM** **Munich, Germany**
Extreme Blue Intern, Watson *08/2015 – 09/2015*
 - Design and implementation of text analysis ML components applied to customer data of leading German insurance company *Versicherungskammer Bayern*; automatically identifies structural semantics and sentiment of incoming e-mails, e.g. complaints and classifies email based on reason for complaint.
 - Pitched project to audience at European Expo and was chosen as one of eight teams to pitch to IBM customers; project was referred to as a "lighthouse project for Watson in Europe" by jury members.
 - Project was awarded Digital Thought Leadership award in leading contest of German insurance industry by leading German newspaper *Süddeutsche Zeitung* and Google³ and covered by *Süddeutsche Zeitung*⁴.
- **Microsoft** **Dublin, Ireland**
Linguistic Engineering Intern, XBox *02/2015 – 06/2015*
 - Contributed to developing an ML system for analyzing linguistic complexity of strings in C# for localization prioritization during testing; performed feature analysis and framed problem as anomaly detection.
 - Created proof of concept and implemented terminology validation algorithm using morphology generation.
 - Evangelized customer sentiment analysis efforts, drove cross-team collaboration, and provided insights to stakeholders.
- **The OpenCog Foundation** **opencog.org**
Google Summer of Code Intern *Summer 2014*
 - Enabled system to make common-sense inferences using deductive reasoning, e.g. *All men are mortal. Socrates is a man. → Socrates is mortal.*
 - Applied inference using probabilistic logic networks on the output of a relationship extractor.
 - Documented and extended Python code for temporal inference.
- **Lingenio GmbH** **Heidelberg, Germany**
Software Engineering Intern *Spring 2014*
 - Created a converter from TBX to Lingenio native format and vice versa.
 - Integrated TBX term bases in Dictionary Server; created localized web service using Jinja2, Flask-Babel, and lighttpd.
- **SAP** **Walldorf, Germany**
Working Student, Development University *02/2013 – 02/2014*
 - Created content for internal programming and Design Thinking courses.
 - Automated reporting processes, e.g. reduced expenditure of work for monthly training report by > 75%, i.e. from 8 hours to 2 hour using Excel / VBA scripts.
- **TEMIS** **Heidelberg, Germany**
Freelancing Developer *02/2013 – 10/2013*

¹<https://developer.aylien.com/text-api-demo?tab=absa>

²<https://developer.aylien.com/text-api-demo?tab=sentiment>

⁴<http://www.sueddeutsche.de/wirtschaft/kuenstliche-intelligenz-aerger-fuer-watson-1.2772927>

- Created a cosine metric-based word sense disambiguation system leveraging tens of GB of text extracted from Wikipedia and DBpedia in Python; achieved performance comparable to the state-of-the-art.

Education

- **National University of Ireland** **Galway, Ireland**
College of Engineering and Informatics, Ph.D. Natural Language Processing *10/2015 – Present*
 - Research in domain adaptation and transfer learning for Natural Language Processing.
 - I am interested in adapting models and making them more robust to handle inputs from unknown distributions and new languages.
- **University of Copenhagen** **Copenhagen, Denmark**
Natural Language Processing Group, Department of Computer Science *04/2017 – 06/2017*
 - Research visit invited by Anders Søgaard.
 - Research on Multi-task Learning as well as cross-lingual and cross-domain learning.
- **Ruprecht-Karls-Universität Heidelberg** **Heidelberg, Germany**
Institute of Computational Linguistics, B.A. Computational Linguistics, English Linguistics *10/2012 – 09/2015*
 - Final grade: 1.0 (German scale), i.e. GPA 4.0; thesis: *Construction and Analysis of an Emotion Proposition Store*
 - Relevant courses: Statistics, Algorithms and Data Structures, Machine Learning, Formal Syntax & Semantics
 - Relevant online courses: Machine Learning (Stanford), AI (MIT), Intro to Algorithms (Berkeley), Deep Learning for NLP (Stanford), Deep Learning (Oxford)
- **Trinity College** **Dublin, Ireland**
School of Computer Science and Statistics, Computer Science and Language *09/2014 – 01/2015*
 - Semester abroad
 - relevant courses: AI, Fuzzy Logic, High-Tech Entrepreneurship

Awards

- Scholarship of the Irish Research Council *10/2015 – Present*
- Cusanuswerk scholarship of the German state *04/2014 – 09/2015*
- Microsoft Certified Professional (Programming in C#) *06/2015*
- Best Delegate award in various Model United Nations conferences *11/2012 – 01/2014*

Languages and Technologies

Programming Languages: Python, Java, C#, R, C, \LaTeX , Prolog, JavaScript, SPARQL

Technologies: SciPy, NumPy, Keras, TensorFlow, DyNet, scikit-learn, NLTK, CoreNLP, MALLET, Weka, UNIX, Git

Natural Languages: Fluent in German and English, advanced in French and Spanish, beginner in Portuguese and Latin

Open Source Contributions: The OpenCog Foundation
