Experience

 AYLIEN Dublin, Ireland

Research Scientist

10/2015 - Present

- Developed new aspect-based sentiment analysis (ABSA) endpoint¹ from scratch; created data collection and training pipeline; implemented semi-supervised convolutional neural networks.
- Developed multi-lingual models for sentiment analysis on-par with state-of-the-art².
- My current work focuses on developing and improving systems for sentiment analysis with a focus on aspects and entities and adapting systems to new domains and languages. For the latter objective, I also work on developing new general-purpose cross-lingual embeddings for words and documents.

• INSIGHT Centre for Data Analytics

Galway, Ireland

Research Assistant

10/2015 - Present

- As a member of the INSIGHT Centre, I collaborate with other researchers on emotion detection, sentiment analysis, and review analysis.

• IBM Munich, Germany

Extreme Blue Intern, Watson

08/2015 - 09/2015

- Design and implementation of text analysis ML components applied to customer data of leading German insurance company Versicherungskammer Bayern; automatically identifies structural semantics and sentiment of incoming e-mails, e.g. complaints and classifies email based on reason for complaint.
- Pitched project to audience at European Expo and was chosen as one of eight teams to pitch to IBM customers; project was referred to as a "lighthouse project for Watson in Europe" by jury members.
- Project was awarded Digital Thought Leadership award in leading contest of German insurance industry by leading German newspaper Süddeutsche Zeitung and Google³ and covered by Süddeutsche Zeitung⁴.

Dublin, Ireland Microsoft

Linguistic Engineering Intern, XBox

02/2015 - 06/2015

- Contributed to developing an ML system for analyzing linguistic complexity of strings in C# for localization prioritization during testing; performed feature analysis and framed problem as anomaly detection.
- Created proof of concept and implemented terminology validation algorithm using morphology genera-
- Evangelized customer sentiment analysis efforts, drove cross-team collaboration, and provided insights to stakeholders.

• The OpenCog Foundation

opencog.org Summer 2014

Google Summer of Code Intern

- Enabled system to make common-sense inferences using deductive reasoning, e.g. All men are mortal. *Socrates is a man.* \rightarrow *Socrates is mortal.*
- Applied inference using probabilistic logic networks on the output of a relationship extractor.
- Documented and extended Python code for temporal inference.

• Lingenio GmbH

Heidelberg, Germany

Software Engineering Intern

Spring 2014

- Created a converter from TBX to Lingenio native format and vice versa.
- Integrated TBX term bases in Dictionary Server; created localized web service using Jinja2, Flask-Babel, and lighttpd.

 SAP Walldorf, Germany Working Student, Development University

02/2013 - 02/2014

 $^{^{1}}$ https://developer.aylien.com/text-api-demo?tab=absa

²https://developer.aylien.com/text-api-demo?tab=sentiment

 $^{^3}$ https://www.sv-veranstaltungen.de/site/fachbereiche/versicherungs-leuchtturm

 $^{^4}$ http://www.sueddeutsche.de/wirtschaft/kuenstliche-intelligenz-aerger-fuer-watson-1.2772927

- Created content for internal programming and Design Thinking courses.
- Automated reporting processes, e.g. reduced expenditure of work for monthly training report by > 75%,
 i.e. from 8 hours to 2 hour using Excel / VBA scripts.

• TEMIS Freelancing Developer

Heidelberg, Germany 02/2013 – 10/2013

- Created a cosine metric-based word sense disambiguation system leveraging tens of GB of text extracted from Wikipedia and DBpedia in Python; achieved performance comparable to the state-of-the-art.

Education

• National University of Ireland

Galway, Ireland

College of Engineering and Informatics, Ph.D. Natural Language Processing

10/2015 - Present

Research in domain adaptation and transfer learning of ML and deep learning techniques with applications to cross-lingual text classification, particularly sentiment analysis, personalization, and dialogue modeling.

• Ruprecht-Karls-Universität Heidelberg

Heidelberg, Germany

Institute of Computational Linguistics, B.A. Computational Linguistics, English Linguistics

10/2012 - 09/2015

- Final grade: 1.0 (German scale), i.e. A+; thesis: Construction and Analysis of an Emotion Proposition Store
- Relevant courses: Statistics, Algorithms and Data Structures, Machine Learning, Formal Syntax & Semantics
- Relevant online courses: Machine Learning (Stanford), AI (MIT), Into to Algorithms (Berkeley), Deep Learning for NLP (Stanford), Deep Learning (Oxford)

• Trinity College

On 1914 of 1915

School of Computer Science and Statistics, Computer Science and Language

09/2014 - 01/2015

- Semester abroad
- relevant courses: AI, Fuzzy Logic, High-Tech Entrepreneurship

Awards

Scholarship of the Irish Research Council
 Cusanuswerk scholarship of the German state
 Microsoft Certified Professional (Programming in C#)
 Best Delegate award in various Model United Nations conferences
 11/2012 – 01/2014

Languages and Technologies

Programming Languages: Python, Java, C#, R, C, LATEX, Prolog, JavaScript, SPARQL

Technologies: SciPy, NumPy, Keras, TensorFlow, scikit-learn, NLTK, CoreNLP, MALLET, Weka, UNIX, Git **Natural Languages:** Fluent in German and English, advanced in French and Spanish, beginner in Portuguese and Latin

Open Source Contributions: The OpenCog Foundation
